President of the
Radio Club of Kiel

07.07.1993

Dear Mr. President,

We would like to express our gratitude to your Club, particularly to dr. Jürgen Friedrich for the generous help to our Union subscribing us the "Dubus" and "CQ DL" as well sending us two FM transceivers, two TNCs, antenna for 2m, power supply and power splitter. These equipments are in use already, however the main idea was to use them in putting up a link to Finnish FM net. But unfortunately there still exist some unsolved problems between SRAL (Finland) and our Union in realization of that project.

Please excuse us for such late thanksgiving. That was caused by the changes with our Union itself and its management.

Our Union is a small one. We have only 366 members at the present time, but we have some hope to increase the number of members in near future in some extent. Taking into consideration our still low living standard (the average monthly salary in Estonia in June was around 70 USD only) we have to lay down as fact that our Union can not afford to spend money for buying modern equipment nor for subscribing magazines for our library. So you can picture how we really appreciate your help.

In spite of all difficulties we face nowadays we have plans to develop a system of repeaters, to make packet radio available at least for our clubs and so on. Your gift has been just of the kind we really need in carrying out our ideas.

Thanks again.

Sincerely

Enn Lohk, ES1AR
ERAÜ, president
